

SS'22  
*Je Ne Sais Quoi*

Capturing the moments that leave us breathless

# About Je Ne Sais Quoi

**Je Ne Sais Quoi [zhə-nə-sā-'kwä]**

*: something (such as an appealing quality) that cannot be adequately described or expressed*

The Spring/Summer 2022 collection, *Je Ne Sais Quoi*, was designed to capture the moments that are so special that they leave us speechless. These are the ones that truly captivate us, stir our passions, and leave a lasting mark on our souls.

Oh, what a gorgeous contradiction it is when the lack of words says more than a 1,000 spoken. It is the stuff of passionate, epic love stories. It is that special quality that's too overwhelming, too ephemeral for words. It is that unshakable feeling that cannot be adequately expressed. Fashion has inspired this for centuries—astonishing and elating us. That's why this season, we honor fashion's role in making us experience breathtaking moments in our lives.

As is characteristic of Maria Elena designs, the new pieces remain decadent and glamorous and are entirely hand-crafted in Miami, FL by expert artisans who first solder the metal bases and then hand-place distinct combinations of exquisite components. These design mix ultra-precise, man-made crystals, crystal rocks and crystal fabric, and synthetic pearls of the finest quality as well as smoked crystals, mother of pearls and fresh water pearls.

# Who We Are

## Your next family heirloom

The history of Maria Elena Headpieces and Accessories is not just the story of a business, but the story of a family. Over a decade ago, Maria Elena created her very first headpiece as a mother's gift to her daughter Marile, to wear on her wedding day. This headpiece was not just an accessory, but was and is, a precious family heirloom that will be passed down through the generations of their family.

Today, Maria Elena wishes to share this gift with brides everywhere -- to offer headpieces and accessories that were created with the same love and commitment that Maria Elena had when she created her daughter's bridal headpiece. And to provide you with the beautiful design, excellent quality, and unsurpassed customer service that we are committed to at Maria Elena Headpieces and Accessories.

Maria Elena is an innovative woman, based out of Miami, with an exceptional talent in creating one-of-a-kind handcrafted headpieces and accessories. She is the pioneer in this revolutionary form of design that exemplifies elegance which is embodied within her work. Her jewelry could be seen worldwide, and has been featured on People Magazine, Us Weekly, Grace Ormonde, Inside Weddings, and Brides to name a few.

We believe that every piece of jewelry tells a story. That's why our handcrafted accessories are heirlooms made to safeguard the memories of our bride's love stories
