FALL WINTER 2021

# NEW YORK

"It is both the dream and the reality of possibilities...  
opportunity, creativity and diversity.

The collection reinterprets American luxury and sportswear, channeled through the attitude of classic New York. Timeless pieces that are grounded in the reality of how women want to dress. It starts with the idea of seasonless dressing and layers, the foundation of wardrobes women will reimagine in their own way. Crisp cotton shirts, knit turtlenecks and feminine shirtdresses; men's suiting with softer proportions and poplin evening dresses, all of which can be styled differently for warmer weather. Accessories and jewelry add dimension to the layers: louche hobos and structured crescent bags, loafers, curved-heel boots and gold and multi-button chokers."
